MAKE YOUR MAJLIS PLASTIC-FREE THIS MUHARRAM

Here is your simple guide.

INSTEAD OF PLASTIC CUPS

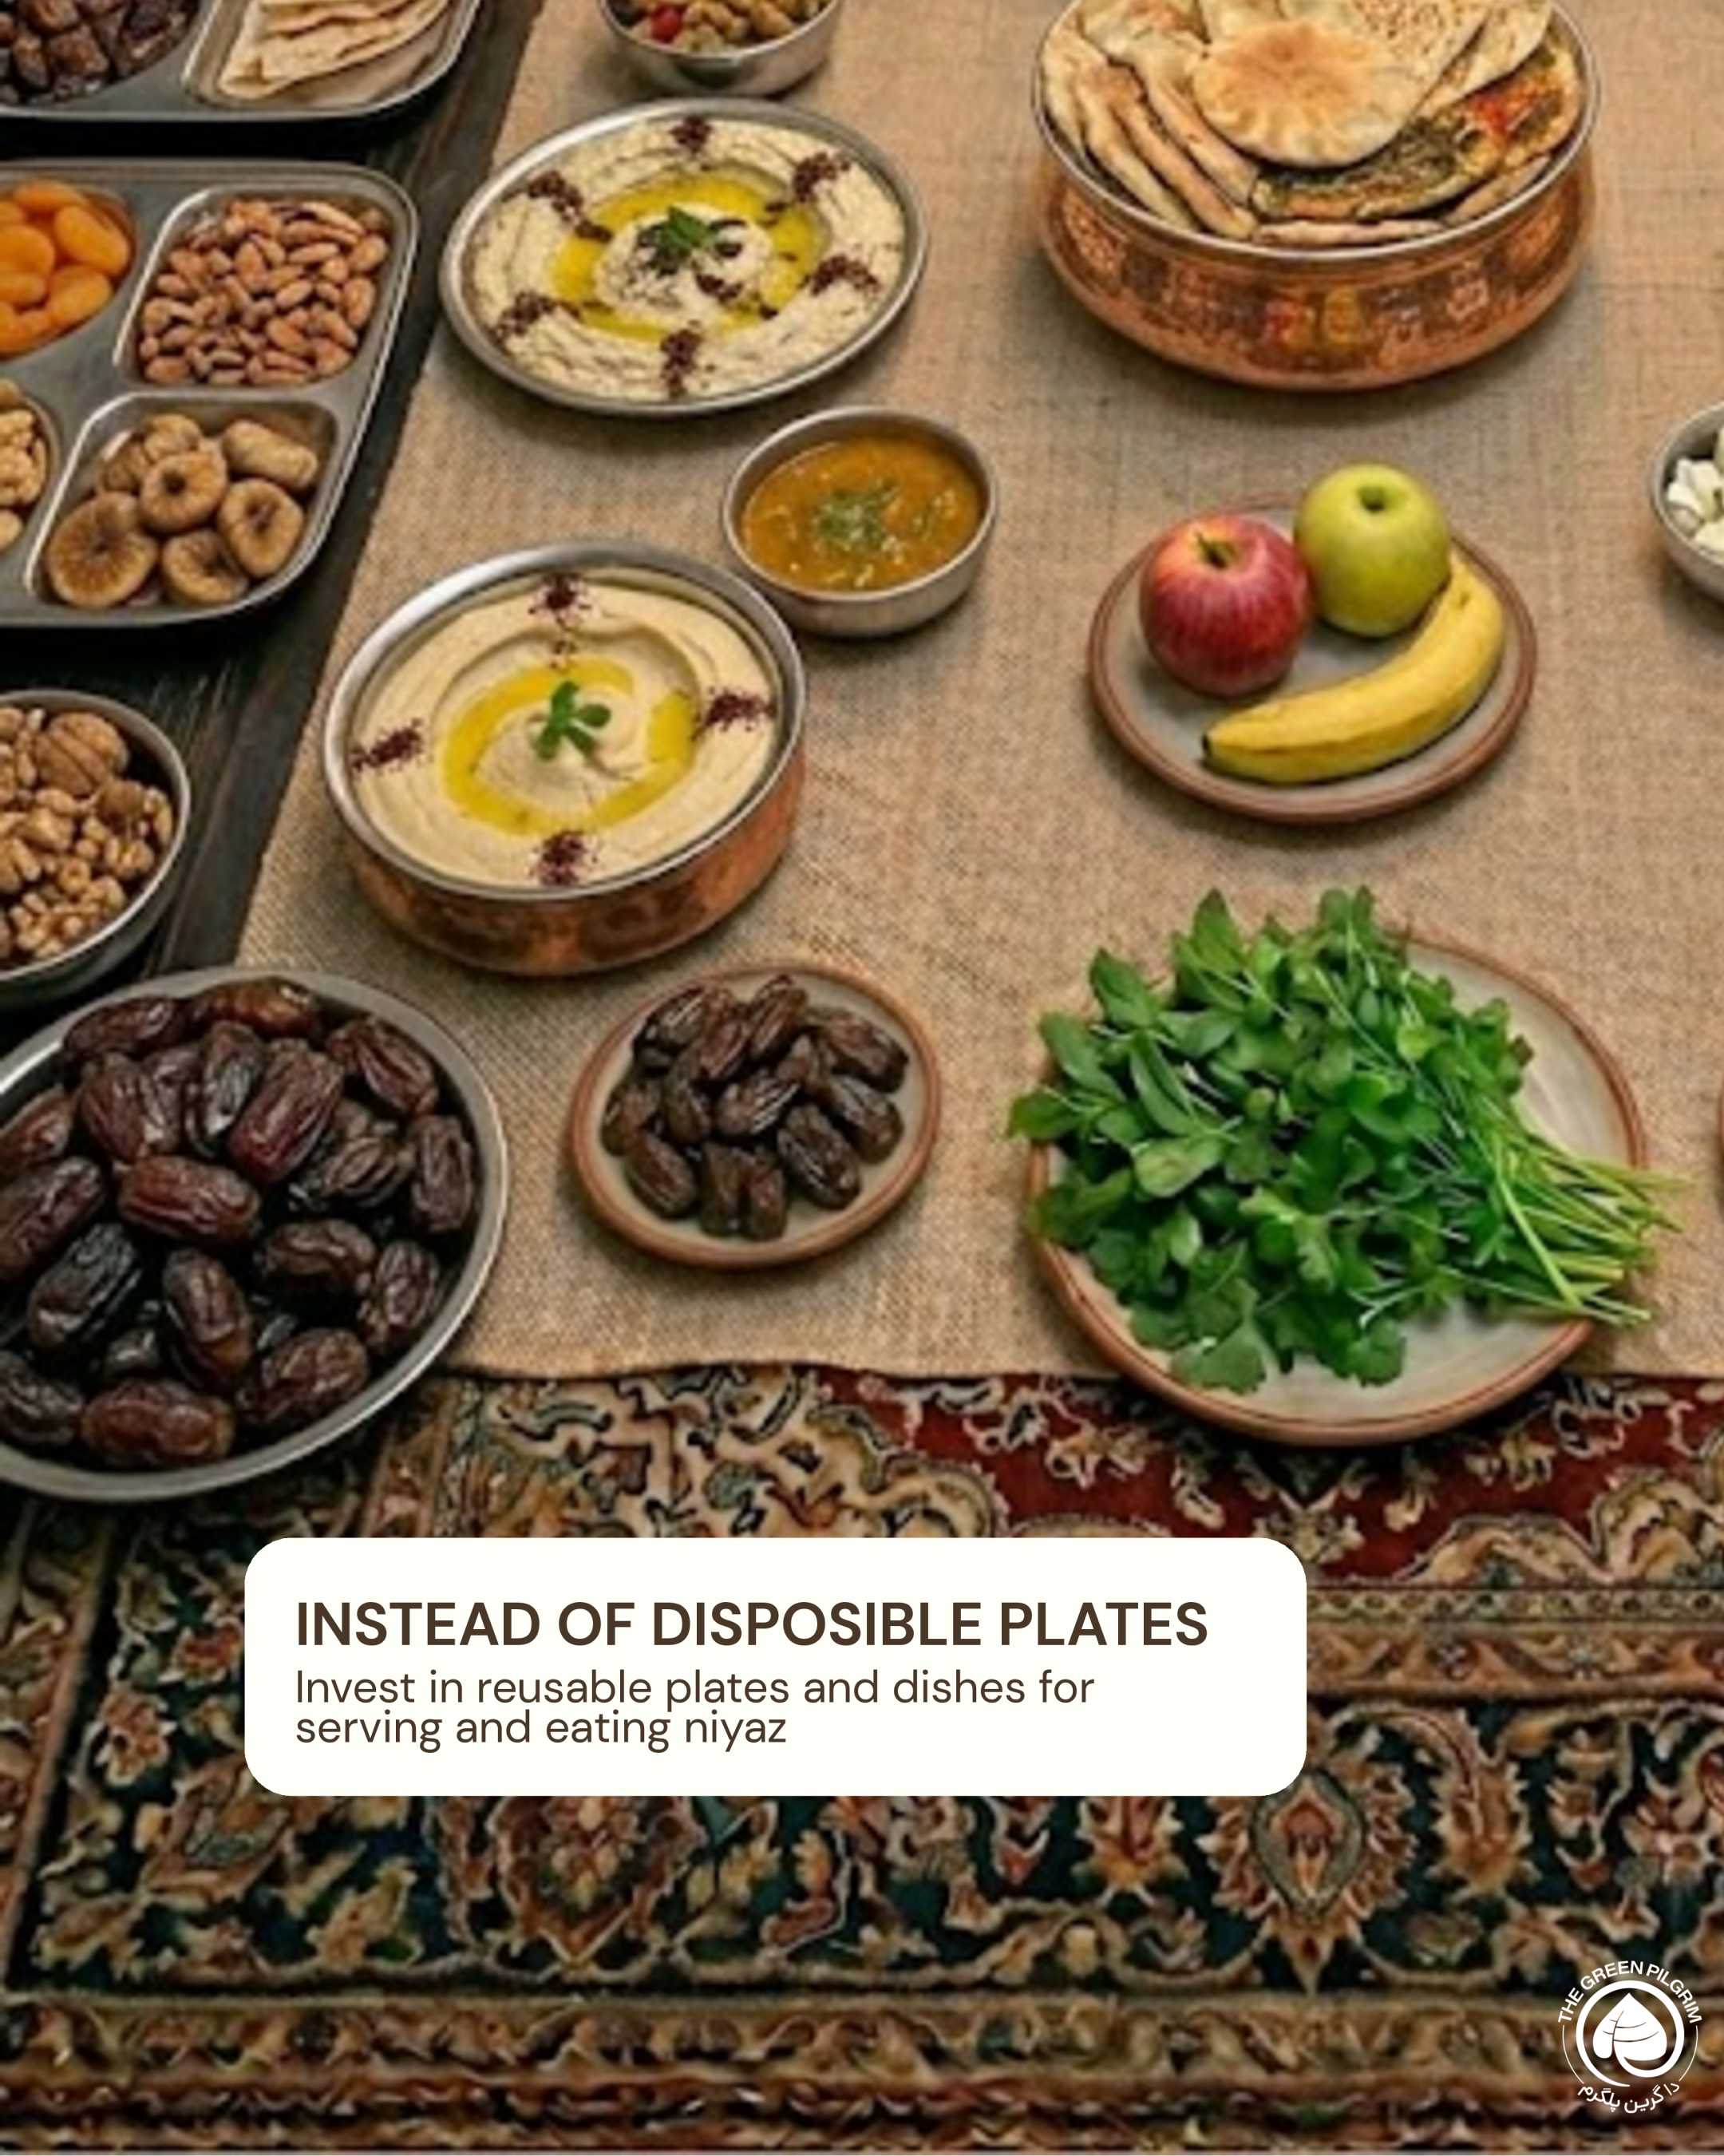

Steel, copper, or glass. Ask your husainiyya to invest in a set that lasts years

A group of women wearing black hijabs are gathered around a large, cylindrical stainless steel water dispenser. They are using reusable glass and metal cups to drink water. The dispenser has a sign that reads "FRESH DRINKING WATER - REUSE YOUR CUP". The scene is set indoors with warm lighting.

INSTEAD OF PLASTIC BOTTLES

Install a reusable dispenser. The shrine of Abbas (a.s) already did this

FRESH DRINKING
WATER -
REUSE YOUR CUP

INSTEAD OF DISPOSIBLE PLATES

Invest in reusable plates and dishes for serving and eating niyaz

INSTEAD OF PLASTIC FOOD CONTAINERS & BAGS

Steel trays, biodegradable, or compostable packaging for tabarruk

INSTEAD OF PLASTIC CUTLERY

Carry your own reusable cutlery set, or provide steel sets for guests

INSTEAD OF PANAFLEX BANNERS USE HAND PAINTED FABRIC BANNERS

Sacred images on majalis banners make it difficult to store, discard, or reuse plastic materials.

INSTEAD OF PLASTIC BAGS

Cloth bags for tabarruk distribution. One order, lasts years

SHARE THIS WITH YOUR MAJLIS ORGANISER TODAY

Tag your Husainiya and Imam bargah below. Forward in your Muharram groups now. Every majlis that switches is a win for the holy cities

Every Switch Counts

50 reusable cups at your majlis =
50 cups that won't decompose for 400 years

And next year, those same 50 cups come back.
Year after year, the impact multiplies.

One investment. Endless khidmat.

Start small. Switch one thing. Do more next year.
